

Appraisal & Conservation Information

The Carnegie Arts Center is unable to authenticate or perform appraisal on works of art or artifacts for the general public. We also do not provide conservation services or advice. If you are interested in having a work of art appraised or conserved, we suggest that you consult a reputable art dealer, appraiser, auction house, or conservator.

The following list includes professional associations and organizations that provide referral services to qualified individuals or businesses. We are also able to provide contact information for auction houses in Northern California that have qualified appraisers on staff.

This list is not intended to be all-inclusive and does not indicate any preference or endorsement by the Carnegie Arts Center.
